## User Interface

The following screen shot shows the main user interface of the Creator.

## System Requirements

The Creator is Designed for Windows XP and Windows 7. Below are the requirements and recommendations for the respective operating system platform.

### Windows XP

OS	Windows XP (32bit) with Service Pack 3 and all patches up to date. Microsoft .NET Framework 3.5 runtime
CPU	Core 2 Quad or better recommended
RAM	4 GB RAM recommended
Graphics	NVidia GeForce 9800 GT or equivalent graphics card.
Hard Drive	For Creator you need approximately 20 MB of disk space on your system drive For best performance we strongly recommend a second hard drive for clip storage

### Windows 7

OS	Windows 7 (32bit or 64bit) with all patches up to date Microsoft .NET Framework 3.5 runtime
CPU	Core 2 Quad or better recommended
RAM	4 GB RAM recommended
Graphics	NVidia GeForce 9800 GT or equivalent graphics card.
Hard Drive	For Creator you need approximately 20 MB of disk space on your system drive For best performance we strongly recommend a second hard drive for clip storage

The Windows 7 Service Pack 1 is not yet thoroughly tested, your mileage may vary.
